

Supervisors Question Continued Authority

Some Unfamiliar With Their Role In Zoning; SIU Protection Urged

(Pictures on Page 6)

At least temporary opposition to proposed Madison county zoning due to unfamiliarity with its procedures was voiced by several supervisors Thursday night at Edwardsville. The zoning commission was an informational meeting for County Board of Supervisors members, presided over by Zoning Commission Chairman Thomas Butler.

The comments were made during a question period following talks on four aspects of zoning. The talks dealt with the importance of zoning protection for farm, university and residential developments as well as its value in attracting industry to provide jobs for the fast-growing population.

Questions indicated that several board members were uncertain that they would retain their existing authority under zoning. The attendance of 45 included about 30 supervisors and assistant supervisors.

Reassurance was given that it is the board which decides on zoning districts, decides what to include in the zoning ordinance and later approves or rejects recommendations of the 31-year administrator and unsalaried appeals board members when the supervisors appoint. Also, it can amend zoning at any time.

Power Of Townships

Superior Township stressed the power of townships, noting that its township has kept out of townships and said he prefers handling whatever regulations are necessary on a township basis.

Joseph Troeckler, supervisor of Chouteau township, reported on a township which has an ordinance to control dumping and said it licenses two junkyard owners has land near a railroad right-of-way and wants to be able to subdivide it for other use. He was told that industrial use is zoned would depend on the ordinance, as adopted or later amended, without zoning to protect it, the investment in home could be depleted, it was pointed out.

The Chouteau supervisor also said that an owner of land being excavated to provide dirt for the proposed Route 200 ramps wants to establish a resort around the lake to be created by the digging.

Panel Members

The panel for the meeting consisted of Victor Hyde of the University of Illinois Bureau of Planning, Don McKelvey, county farmer; Kenneth Green, director of planning of the State Board of Economic Development; and Dr. D. W. Morris, president of Southern Illinois University.

Venice Council Acts To Oppose Water Rate Hike

The Venice city council Friday night voted formal opposition to an increased water rate schedule requested by the East St. Louis & Interurban Water Co., a hearing on which is to be held before the Illinois Commerce Commission at Springfield Thursday. Granite City and Madison and Narnold township also are opposing the rate boost request.

In a resolution the council said it is of the opinion that present water rates are sufficient to allow the company to carry on its operations with a fair margin of profit on its investment.

The resolution stated that the council is against higher rates and authorized the mayor and city attorney to take whatever action they feel necessary in opposition to the water company's request. Copies of the resolution will be forwarded to the ICC.

Mayor John E. Lee had previously written the ICC expressing his opposition to the proposed new rate schedule, and had expressed his support of the St. Clair Water Consumers' Association, an organization of municipal officials and businessmen formed at Belleville to fight the increase.

Begin Garage Planning

In other action Friday night, Mayor Lee appointed a four-man building committee to work with city officials on plans for the proposed new city garage on Klein street.

The mayor said preliminary reports on title to the property owned by the city, and the proposed new rate schedule, and had expressed his support of the St. Clair Water Consumers' Association, an organization of municipal officials and businessmen formed at Belleville to fight the increase.

\$1,055,240 To Be Spent In 1962 By Levee Board

New Budget Adopted At Special Meeting; Total Down \$5775 From 1961

An appropriation ordinance authorizing the expenditure of \$1,055,240 during 1962 was adopted by the East Side Levee & Sanitary District board of trustees during a special meeting Friday night in East St. Louis.

The trustees also adopted a 1962 budget of \$945,240, the total of the amount set aside for expenditures less a \$60,000 bond deficiency appropriation. The adopted budget is \$5775 lower than the 1961 budget of \$951,015, and combined with expected receipts from other sources, makes a total of \$2,803,138 in estimated funds from all sources.

The \$2.8 million estimated income includes \$1,294,940 for project costs, down \$795 from 1961; \$105,050 for administration, up \$400 from 1961; \$50,000 for police, down \$100; \$54,150 for engineering, down \$14,800; \$277,200 for maintenance, up \$15,000; \$53,000 for municipal retirement, same. Salaries, included in the above figures, are \$45,000 for the director, down \$1000; \$40,000 for engineer, down \$15,000; and \$140,000 for maintenance, down \$20,000.

The largest single amount of income will come from bonds and interest, the board estimates, and will total \$1,021,646.

Bond Issue Excluded

The district's special \$1,833,290 general obligation bond issue to finance 10 proposed projects in the district, one of them the replacement of a 2700-foot section of the Terrace Lane trunk sewer in Granite City, is not included in the 1962 budget.

The \$16,700 increase in maintenance costs during 1962 will be brought about by the beginning of a mosquito control program.

Administration costs rose due to the expenditure of \$5000 for a special audit of \$5000 and \$2500 for building repairs and new office equipment.

Bond and interest provisions made in the 1962 budget will be \$1,021,646.

Two-Car Crash Kills 4 Granite Cityans Near Nashville Sunday

Victims Are Ronald Spengler, His Wife, Former Elyne Schuman; Miss Kay Bridges And D. Fay Stagner; One Killed, 7 Hurt In Other Auto

Four well-known young Granite Cityans were killed about 6:15 p.m. yesterday in a tragic two-car traffic accident near Nashville, Ill., in which an eight-year-old Mt. Vernon, Ill., girl also was killed and seven other persons were hurt.

Pronounced dead at the crash scene on U. S. Highway 460 about seven miles east of Nashville were Ronald W. Spengler, 23, of 2624 Center street, son of School Board President and Mrs. Spengler; his wife, Mary Elyne, 19, daughter of D. Fay Stagner, 20, of 2416 Kilgore drive, and his fiancée, Miss Janice Kay Bridges, 20, of 2819 Indiana avenue. The fifth victim, Joycelyn Tracey, 8, daughter of Mr. and Mrs. Vernon, died enroute to Good Samaritan Hospital at Mt. Vernon, where her parents and five other passengers in their car are patients.

The Granite City quartet was returning home from the Kentucky Lake area after having left here Saturday on an antique buying tour. They were in a small foreign compact auto which was "torn apart like a can of sardines" by the two-car crash, which occurred at a curve on the two-lane highway, and that while there were no witnesses, the small car, driven west by Spengler, apparently went off the pavement and then out of control as it was reversed back onto the road.

It is believed the Spengler car must have oversteered while sliding when the impact occurred with the eastbound auto driven by Tracey, whose condition is listed as serious. The Granite Cityans' car was resting parallel to the road when the impact occurred, and the eastbound auto was sliding when it struck the Granite Cityans' car, which was traveling west.

Settling At Aubrey Ave. No Break, City Says

A reported sewer break in the 3100 block of Aubrey avenue was investigated Thursday afternoon by the city engineering staff and A. W. Pearson said the depression, a short distance from Jull avenue appeared to be a natural settling of the earth.

Pearson said sewage was running through the 15-inch line, so there was no blockage. A further study of the line is planned. The scene of the settling was about 300 feet from the site of a costly break in the sewer line early last summer.

74 Local Units To Observe Boy Scout Week Feb. 7-13

The 52nd anniversary of establishment of the Boy Scouts of America will be observed here beginning Wednesday and continuing through Tuesday, Feb. 13.

Members of 74 scouting units of the Unihav district of the Cahokia Mound Council have planned a full program of activities involving their parents, community leaders and heads of local institutions which sponsor the units.

The observance has as its theme, "Strengthen America — Character Counts," with special emphasis on scouting's new program of national purpose, through which 5,235,000 boys and leaders pledge "I will do my best to build, to serve and achieve."

Emphasis On Family Life

"This year, Boy Scout week will focus on the Boy Scout family," Allen Jesse, Unihav chairman, reported today. "Each of our units will recognize the part that American families play in furthering the work of scouting."

"We have many families in our area who have been involved in scouting activities for two and three generations. We feel that scouting contributes to American family life and, in turn, strong families are a tremendously important factor in America's strength."

Jesse noted that when a boy is scouting, he attains a higher rank, his mother wins the privilege of wearing a miniature pin of that rank.

MADISON PRESSES FAST COLLINSVILLE, 58-51

Freeman Leads Trojans To 18th Straight Win

Press-Record Staff Photographer

FAST ACTION was the rule under both baskets Saturday night in Madison, where the Trojans remained the area's only unbeaten team by stopping Collinsville, 58-51. Here the Hawks gain the upper hand, momentarily, as Roger Bohnenstiel (35) pulls down a missed Madison shot. Players identified (left to right) are Ed Petty of Madison, Marvin Meyer of Collinsville, Madison's Terry Andrews (40) and Ken Griggs (32), Bohnenstiel and teammate Ron Motin (45).

SCORING SHOT, one of 11 by him, is fired toward basket by Madison's Don "The Eel" Freeman, who slipped in and out of Collinsville's defense with regularity Saturday night, scored 26 points and led the Trojans to a 58-51 victory over the defending state champions. Making unsuccessful attempt to block Freeman's jumper are Marvin Meyer and Than Byrkit (21). Kahoks: Ron Matkitts (53) waits for possible rebound.

They did it! Coach Earl McClanahan's Madison Trojans ran their unbeaten streak to 18 Saturday before a capacity crowd at the Madison gymnasium by dumping Coach Vergil Fleicher's Collinsville Hawks, 58-51.

An advertisement in a recently nationally-circulated magazine stated that Fletcher Collinsville team had tea before each game as a "hot refresher." Saturday night, the Hawks had too much "T" for Trojans—as Madison's Big Green defeated 11th Illinois' defending state champions at their own game.

Both teams employed an all-court press throughout the game but the Trojans proved masters of the technique as the Hawks made numerous floor mistakes and were unable to steal the ball from Madison.

Freeman Outstanding Don "The Eel" Freeman led the Trojans with 26 points. Playing a high post, Madison's center, at least the Hawks' third loss in 17 contests.

Only the night before, Fletcher Collinsville triumphed in an eighth-ranked Maroons 84-72. Ranked fourth in the state, the Trojans met Marquette of Alton in the first game.

Kahoks Outbounced Madison's players averaged two inches shorter than the Hawks, but the Trojans got twice as many shots at the basket. Out-rebounded and outplayed, the Hawks were only able to muster an almost unbelievably low 28 points from the field.

Each team used six players and both squads lost one man in the last stanza as 58-51 with nann and Trojans Ken Griggs both 3:30 remaining in the game.

Tigers Soft Touch; GC Scores 1st SWC Victory

Win Follows Poor Showing In E. St. Louis

They may not be headed for the basketball heights this season, but Andy Sullivan's Granite City Warriors must search no longer for the victory combination in the Southwestern Conference. While the attention of most press court fans was focused on the Redmen quietly sneaked off with a convincing 59-33 decision over Edwardsville at the GCHS gym. It was their first SWC triumph in 10 tries, and came on the heels of a disappointing showing the previous evening in East St. Louis, where the Flyers ran up a 60-49 score. Pecten 81-62 when they visited Edwardsville Dec. 22, the Warriors left no doubt in the minds of a small crowd that they were out for revenge as they jumped to a 19-8 first quarter lead—without the services of 6-7 George Moore.

Buehler Hits 14 Moore did not get off the bench until the second period. He ended the evening with 13 points, but scoring honors went to Guard Vic Buehler, who found the range for 14 points, his top effort this year. The Tigers, with the exception of Rich Guseville, could not do anything right. Their offense (only 37 shots) bogged down against GC's pressing defense and Coach Ron Harris was unable to find anyone on the bench who could break a shooting cold spell.

Trailers 29-16 at Halftime Granite City dropped farther off the pace in the third quarter (35-16) before a mild flurry of baskets drew them to within nine at 35-24. But the Flyers regained control and squandered a 43-20 lead after three quarters. Larry Lilley and Vic Buehler of GC both went to the bench with five fouls over a minute left to play in the third quarter of the first varsity game he started. Dehner also gave Bill Roberts his first starting assignment.

Fast Pace The scoring pace picked up in the final period as both clubs found the handle on a basketball which had skittered about the floor rather indiscriminately for three quarters.

The Warriors outscored East St. Louis over the last eight minutes, 23-17, as Moore and Jim Proffitt each found the range for eight points. Granite City varsity scoring: Granite City 11, Proffitt 12, George Moore 12, Larry Wortham 2, Glen Hoffman 0, George Brink 0, Bill Boyd 0, Edwardsville—Guseville 17, Paproth 7, Lichtenauer 4, Vest 4, Lynn 4, Stubbs 3.

1st Assembly Nears Title; Trinity Edges Tri-City Park 62-60

First Assembly of God all but clinched first place in the B Division of the park district's Church League Thursday night at Coolidge Junior high school by defeating Second Baptist 72-66.

In the nightcap, Trinity Tabernacle grabbed an early lead and held on to edge Tri-City Park Tabernacle, 62-60.

It was the second time in a week that First Assembly trimmed Second Baptist. The former team is now 7-0 with three games remaining on its schedule.

Don Devany, Jerry Cicio and Bill Black paced the offensive for Trinity, which broke a five-game losing streak and improved its MCM record to 2-1.

Warden all but sewed up the conference crown when it defeated Weslin 81-48 Friday. The Trojans are 9-1 while Weslin is 1-7.

The church League standings:

Warriors Drop Public Loop Champ O'Fallon Tech Here Friday, 28-12

Granite City fell behind early
and then took care in Burlingame
Public League victory over his
previously unbeaten opponent to
win its 11th straight dual wrestling
meet here Friday night.

O'Fallon Tech, the St. Louis
Public League champion, was a
28-12 mat victory.

The Warriors trailed 9-4 after
losing the first three of the first
four bouts, but Felchlin required only
1:40 to press Joe Mitchell in a
135-pound bout, stopping him
with a long string of wins and
boosting GCHS to an 11-9 lead
over which Bill Schmitt's grasp
never lost.

"They were the toughest St.
Louis team we met this year,"
Schmitt commented. "I only
wish our boys had to run into a
few more like them before tourna-
ment time."

Two Meets Remaining
The district eliminations, at
Wood River are 15 days away and
the Warriors have two dual

meets to complete in the mean-
time. The first is tomorrow at 1:30
p.m. in Normandy, Mo., and
the regular season will end here
next Tuesday when conference
opponent Wood River pays a
call.

Granite City already has
lost the Southwest conference
title for the fourth
straight year. Two victories
against the season record
10-1; heavyweights, Gary
Reiss (GC) defeated Clarence
Warner, 8-2.

In junior varsity action, Bob
Troha (55), Jim Sumner (154)
and heavyweight Mike Fry each
scored pins, while Dave Gray
(103) won by forfeit and Mike
Nicholls (112), Forrest Mueller
(120) and Denny Petroff (165)
won decisions. Beaten by a fall
was Jim Cavanaugh (133), Jim
Parker (138), Allen Scharf (148),
Pat Gausey (165) and Pat Kin-
caid (127) lost decisions.

Exhibition bouts went to Frank
Chenard (pin) and Terry Young
(decision).

Members of the local Bubble-
masters adult scuba diving club
and the host Masketeers diving
club of Alton participated in an
ice dive Sunday afternoon and
evening at Robin Hood lake near
Carrollton, Ill.

Divers hatched through six
inches of ice, stretched two life
lines and swam to the bottom.
Participants spent as much as 20
minutes below the surface of
the lake, which was at a tem-
perature was 38 degrees. The
air temperature was 78 degrees.

The divers were hosted at a
four-course dinner including
Martin Schuster Jr., Martin
Schuster Jr. and Ray Dou-
glas.

\$15,000 Downtown Promotion Kicked Off With Fund Drive

(Picture on Page 20)

A drive was started today by downtown Granite City merchants, businessmen and professional persons to raise \$15,000 to sponsor a year-long promotion and improvement of the downtown shopping center through cooperative advertising and special events.

Presented to the downtown sponsors as "A Plan for You in '62," the promotion is under the direction of a 14-man executive committee headed by Chairman Ted Berger, proprietor of the Ben Schermer Ace Hardware. The actual promotion is to begin March 1 and run through the end of February 1963.

The campaign is designed to develop the concept of the downtown Granite City central business district as a shopping center and to acquaint all citizens of the community with their stake in the downtown area's future. Berger said.

Every segment of the Mercantile, financial and professional community, including lawyers, doctors — doing business or practicing their professions in the downtown business district — are being called upon to join in the program, with each firm and individual contributing to a pre-established assessment to meet the costs.

Since the owners of the properties in which the stores, businesses and professional men are located have as much to gain or lose by the success or failure of the downtown business district, as the occupants, the executive committee decided they will be asked to contribute an amount equal to at least one-third the given by their tenants.

Special Themes

The \$15,000 campaign budget has been set up on a 12-month basis, with \$1250 a month to be available. Each month will feature a special theme, such as Thanksgiving and Christmas season opening in November, with a new event chairman to handle each month's promotion.

To insure that funds will be spent to the best advantage of all downtown merchants and businessmen, Berger pointed out, the monthly event chairman will appear before the executive committee and present his plan.

and its cost before any money is appropriated. The budget will allow for certain regular projects, such as a full-page ad in the Press-Record, promoting all types of enterprises in the downtown Granite City shopping center. These ads will be designed to list for local residents all the various services available downtown.

Displays, Decorations

In addition to the newspaper advertising, the committee will promote the downtown shopping center through use of other communications media, special taboia, circulars, direct mail store window displays, street decorations, pennants and flags.

As a special feature, the committee will hire a downtown sidewalk patrolman to see that all waste paper and trash is picked up, and to encourage cleaning the downtown area by regularly washing down sidewalks in the downtown places.

Serving on the executive committee with Berger are Delbert Wittenborn, P. Hirsch & Co. manager, vice-chairman; Lenard Fleishman, proprietor of Fleishman's Store; Harold R. Alvin T. Barnes Jr., executive director of the Associated Retailers and Civic Association, secretary.

Other Members

Other members are Henry D. Karandjef, chairman of the Board of the Granite City Trust & Savings Bank; Harold R. Alvin T. Barnes Jr., executive director of the First Granite City National Bank; Homer Huber, co-owner of Feder & Huber Furniture Co.; Fred Wiesman, M.D.; Randall Robertson, attorney; Dr. Stanley F. Maer, optometrist; Dr. E. J. Ackerman, chiropractor; Tom Studebaker, construction contractor; "Bill" Burns, proprietor of the Grand Cafe; and Chester L. Baker, president of the Granite City Printing Co.

Forty-four downtown merchants, businessmen and professional men have been named to the committee as solicitors for the \$15,000 assessed to sponsor the promotion campaign.

Collections will begin today, Berger said, and the campaign itself will be kicked off next month with special green tags sales to tie in with St. Patrick's Day.

\$665,000 for principal and \$356,646 for interest, totaling \$1,021,646. That total represents an increase of \$45,000 in principal and \$32,248 in interest compared to 1961.

Tax Warrants Decrease
Tax anticipation warrants which the district had outstanding at the end of December 1961 totaled \$339,236, compared to \$833,446 one year earlier. The trustees estimated that the amount can be lowered to \$404,500 by the end of this year.

At a public hearing held prior to the adoption of the budget and appropriation ordinances, John Henne of the St. Clair County Taxpayer's Association asked if the lower district current legal counsel had been paid for a full year's services, as indicated in records.

Board President Lawrence Tohar said checks for the attorney were being held until he can obtain an opinion from the attorney general's office.

Current board attorneys are thought to have been ruled appointed early in 1961 at a meeting conducted by Thomas Hennessey and John Molla as the result of a decision handed down last July by City Court Judge John M. Karns of East St. Louis, in which the judge voided a meeting held by minority board members Dan Costello and George Duff, at which since released attorneys were appointed.

Judge Karns, in his July ruling, ordered the minority attorneys paid for their services, although they voided the meeting at which they were appointed.

The board will hold its next regular meeting on Wednesday at 7:30 p.m. at the levee district offices. Trustees Costello and Duff were not present for Friday night's proceedings.

MORE ABOUT Supervisors Question (Continued from Page 1)

zoning was adopted in Macon county in 1943 at the request of farmers and residents. Establishment of a parking lot in one area there had depressed the value of a group of new homes by \$25,000 prior to zoning, he related.

One development had only one acre of land, but was the center of becoming a slum. "Because of zoning and greater interest in the area, it was opened up and now is a very good area," he reported.

Warning against inaction, Muirhead said, "We pay not only for mistakes that we make but for things we don't do. The cost of zoning is small and it might cost you much more if you don't have it." He stressed that the County Board and the governing body and "should tailor and fit zoning for your area."

He likened county planning and zoning to the adjustments necessary when a man marries. "Each time there is a new marriage, it takes a little more cooperation, adjustment and control to make an effective family unit. The same is true in a growing county."

While all are respectful of controls, zoning is as necessary as a traffic signal and laws which also are for the "protection of you and me," Muirhead said. "The more zoning, the more the more we have to follow basic rules."

He encouraged the state board not to subject to reasonable controls based on misunderstanding or not thinking it out.

The board will hold its next regular meeting on Wednesday at 7:30 p.m. at the levee district offices. Trustees Costello and Duff were not present for Friday night's proceedings.

Driving Charge

James Muirhead, 70, of 2609 Jerden Avenue, was arrested by Granite City police at 11:15 a.m. yesterday for reckless driving. He was released on bond.

2 Holdups, Many Thefts Reported; 5 Are Arrested

Two robberies, several burglaries and burglary attempts, many thefts and car loadings were reported during the weekend to Quad-City area authorities. Five persons in connection with the thefts.

1440 Armored Robbery
Two armed men held up the Moto Gas station, just south of the McCormick Avenue viaduct, outside Madison, at 1:15 a.m. Sunday, robbed the operator of \$140, and fled in a white 1960 convertible as he fired a blast from a 12-gauge shotgun at them, county authorities reported today.

Billy Joe Butler, operator of the station, told deputies that the two men, both colored, entered the station about 1 a.m. Sunday and asked for change. One returned with a 38-caliber pistol, robbed Butler of \$140 and took the car. The other man, a white man, a part-time employee of the station, before they left, returned to the station and fired the wall. Butler fired a shotgun at the car as it fled.

Robbed of \$40 by Trio
Elmer McMillon, 77, of 2306 Washington Street, West Madison, was robbed by three men near DuPont school Sunday afternoon. He was released on bond.

He called counties and cities the "building blocks to a better life." "Together, the state and counties can move toward a better environment through planned development. It is the implementation of planning."

Muirhead said the county does not blame a county board member for "taking an automatic position against whatever is proposed until the need for it is shown," but he urged that all "keep an open mind" so that zoning laws can be developed. He said minor opposition to zoning before its adoption in Macon county has disappeared. He commented, "Today, there is not one objection."

Hyde Said Farm Control Proposed
Hyde said Illinois authorized county zoning in 1935 and estimated that "zoning that is not applied to agricultural pursuits, except for reasonable setbacks lines on future buildings of future farmers and ranches."

Recalling an engineering firm's estimate that Madison county's population will grow by 100,000 people or 128% by 1980, Hyde said the present growth rate should continue and accelerate.

In the past decade, the U. S. gained an average of 3,000,000 people yearly and Madison county, with 95% of the expansion in metropolitan areas such as this.

Urgency Of Action

"With such a tremendous population explosion, the problem is not only to control growth but to put it off. It is a matter of urgency. The immediate and a future welfare of rural and urban areas must be protected from inefficient and indiscriminate development. The only way we have available. Only the county government can provide functional structure that can cope with this."

Dangers listed by Hyde were unnecessary and speculative subdivisions, waste of water and resources, pollution of streams, runoff of water and rapid, haphazard and unguided development.

"We talk about the regulations, but it is important to know what zoning cannot do. It has nothing to do with controlling the value of structures or the details of construction."

Not Retroactive
"It is not retroactive. A use existing legally when zoning is adopted can continue as a non-conforming use unless expanded or destroyed by an act of God, reconstruction would be subject to zoning provisions, so that the use can be reached over a period of time."

Zoning does not control present use, but it conserves property values and directs growth to the best advantage of the citizen.

"It has no effect on assessment for taxes. It does not require to change a use, and it can be remedied and sold."

Can Be Sold, Inherited
"There are no restrictions on sale or inheritance of land or buildings, on farms or other property. The new owner may continue the same use if he chooses."

Noting that the State Board of Economic Development did add its planning funds until Nov. 1, Green said it is aware of the need for county and county planning and zoning and plans to encourage zoning.

Optimists Hear Fallout Shelters Discussed

Granite City Assistant Director of Civil Defense Theodore Todoroff discussed fallout shelters and the effects of nuclear attack in an appearance before members of the Daybreak Saturday Club at the YMCA Saturday morning.

Todoroff said home shelters built in this area should be separate from houses, since the heat of a nuclear blast in the St. Louis area would burn homes and cause a great deal of basement shelters.

The fallout shelter is just that, a shelter, said Todoroff. It is not a protection from the concussive force of nearby blast. Three feet of earth should offer sufficient protection from fallout, the CD official said. He showed colored slides of various types of shelters and was introduced by Charles Rodell.

A report on the forthcoming Optimist Club picnic, to be held by Chairman Robert Butler, sr. Fred Schwartz presided at the meeting. Todoroff was introduced by Richard Bledsoe, Steve Cavanaugh, John Kern and John C. Brown, county commissioners.

that no cars were on the high-altitude plane at the time Harry Madison, car barber who lives a half-mile from the scene, said he heard the low-flying plane go over his house.

"We have a government contract to conduct an air taxi service from Lambert to Scott," explained Moesmer. He stated that he had no idea what caused the trouble and indicated that he would have federal authorities investigate the crash.

Moesmer told the Press-Record that the plane is valued at \$43,000 when new. "This one is a 1957 model and is probably worth \$20,000 now," he added.

State police kept vigilance on the wreckage Thursday night so that thieves would not strip it. "Because of its wing span, it will have to be dismantled Saturday," said Moesmer. He added that an employee of the Young Aviation Co. kept watch on the plane Friday night. Gliblin was not available for comment.

LeMaster Files \$22,500 Suit Against 3 Taverns
Local tavern operators were named as defendants in a \$22,500 lawsuit filed last week in the circuit court at Edwardsville by Granite City Third Ward Alderman Rufus LeMaster, as administrator for the estate of his son, Eldon Ray LeMaster, 20, who was found dead in his auto in the garage at the family home, 2138 Benton street, a year ago on Feb. 4, 1961.
The defendants are Joseph J. Prince and Paula N. Prince, of the Sportsman's Club; The Lion Home of Madison, Inc.; Clayton Justin Harrison of Jug's Hide-away, all in Madison; and Andrew T. Rapoff and Jordan Rapoff, doing business as the Orchid Lounge near Mitchell.
In the suit, LeMaster claims his son was sold alcoholic liquors at the establishments. He seeks \$20,000 because of loss of income for the family and \$2500 funeral expenses.

Group Seeking Zoning Hearing Attendance

Steps taken to encourage public attendance at future county zoning hearings in various townships were reported at a luncheon meeting of the Madison County Citizens' Planning Committee Thursday in Edwardsville. Chairman G. W. Hoelscher presided. Hearing dates are to be announced soon.
Southern Illinois University will send information on zoning to many officials and citizens in the county, it was reported during the discussion.
The planning committee has gone on record as endorsing adoption of zoning for unincorporated areas of the county. It currently is aiding in increasing public understanding and interest in zoning.

the sludge cake to a landfill operation at the city dump. They point out the flow and solids load from an industrial complex such as confronts the designer of a treatment plant for Granite City is difficult to predict.

Provision of incineration facilities involves a substantial capital expenditure, while hauling of sludge filter cake, involves a much smaller capital expenditure and can be more easily tailored to the solids load actually received when the treatment plant is placed in operation.

3rd Method Ruled Out

A third method of handling sludge has been ruled out, because it would require 20 acres of land at the Granite City Engineer Depot, and it is reported authorities have indicated reluctance to permit the construction of lagoons. The current plan is for the sewage treatment facilities to be located near the city's sewer pumping station, which is on the depot grounds.

Instead of lagoons, settling tanks would be built for the Granite City primary treatment plant to collect the sludge, which would be moved to a central collecting sump by collector mechanism. Construction of three primary settling tanks is proposed to comply with the Illinois Sanitary Water Board regulation requiring a suspended solids removal of not less than 45%.
